

WELCOME

Husted is a handful of restaurants, scattered around the city, with one thing in common: A lot of good wine, served with coziness and heart. All the wines are imported by Husted Vin and come from all over the world. Our goal is for all the wines to be sustainable, and preferably organic, if it makes sense in relation to the area they come from. Sit back and enjoy our cozy corners of the city.

CHARDONNAY – PINOT NOIR – PINOT MEUNIER

ANDRÉ JACQUART - CÔTE DES BLANCS - MESNIL SUR OGER - VERTUS

Marie Doyard has wines in the Côte des Blancs, probably the most hyped Champagne area. The grape is always Chardonnay, and she has chosen to barrel ferment her wines with long bottle aging. She is happy to keep her wines extra brut and with a max of 4 grams of sugar per liter in the bottle. She has wines in the 1. Cru area Vertus, and the Grand Cru area Mesnil Sur Oger.

She is Certified with 3 HVE.

Straight up wines, with a very well-integrated palate.

France 2012	Côte des Blancs Le Mesnil- sur-Oger	André Jacquart, Vintage Grand Cru · Chardonnay 4 g/l HVE oak	2000,-

HAUTBOIS – MONTAGNE DE REIMS - PÉVY

Fabien has a small vineyard with 8 hectares, where he uses almost all the grape varieties he is allowed to use in the area of Champagne. There is no fertilizing in the vineyards, and he is certified with 3 HVE. With a blend of the grapes Pinot Meunier, Pinot Noir, and Chardonnay, there is a little more fullness in the body than in the pure Chardonnay based wines.

France NV	Montagne de Reims Pévy	Hautbois, Haut Thentic · Pinot Meunier, Chardonnay, Pinot Noir 6 g/l HVE	750,-
France 2012	Montagne de Reims Pévy	Hautbois, Haut Rigne Vintage · Chardonnay, Pinot Noir 3,5 g/l HVE oak	900,-

A. LEVASSEUR – VALLÉE DE LA MARNE – CUCHERY

David also has a small winery where there are wines of Pinot Meunier, Pinot Noir, and Chardonnay variety. He is certified Terra Vitis and is well on his way to become an Organic winery. He may like to have a slightly higher dosage of sugar than some of the wineries, which means that his wines have a little more sweetness, but still in the dry spectrum.

Champagne has become expensive, so we have looked elsewhere to find some seductive wines with bubbles in them. There is everything from wines that are made like Champagne (Cava & Crémant), to wines made using the older methods (Pet Nat, Ancestrale), to the simpler tank methods (Spumante). Their similarities are that they are all sustainable in their own way, and most of them are organic.

NATURAL WINE

MINIMAL INTERVENTION

PINOT NOIR – BOMBINO – GARNACHA BLANCA – VIOGNIER – CHARDONNAY
WEISSBURGUNDER – SAUVIGNON BLANC - CHENIN BLANC – FALANGHINA – TARDANA
MACABEO – MALBEC – MERLOT – ALICANTE BOUCHET – GARNACHA NEGRE - GAMAY
BONARDA – NERO DI TROIA – SYRAH – CABERNET FRANC

Very controversial, and for some completely enigmatic.

What is natural wine and what can you expect? In short, these are wines where there is minimal intervention in the wine, i.e., it must take care of itself, be organic, not make use of pesticides, with no added yeast, sugar and acid. The wine must also not be filtered, and the content of sulphites (So2) must not be higher than 30 mg/l for the reds and 40 mg/l for the whites.

However, a law has not yet been made for natural wines, so it is still 'uncharted territory' - the above are only guidelines. So, what can one expect from the wine?

We believe that there are only 2 kinds of wine; well-made wine and poorly made wine, the rest is up to your tastebuds. Our natural wines are not completely off the rails, and do not taste of sour cider, and smell like an old sports bag. They are made with the utmost care, and it feels like they are more bare and naked, than your conventional wines.

SAUVIGNON BLANC - GRAUBURGUNDER – VIOGNIER – FALANGHINA - GEWÜRTZTRAMINER

Now what is that?! It is a white wine that is made like red wine!

Another reach for the 'wine sky', even though the people of Georgia have been making wine this way for the last 5000 years. All of the green grape is fermented together, including skin, juice and seeds. It is the skin of the grape that gives the wine a darker colour than usual. The wine takes on an orange hue, and have more body and tannins.

The taste is dry, and towards orange peel, quince and dried apricots.

From pale to deep dark pink and from crunchy to sugary sweet. Rosé is not so easy to master.

The grapes are countless, but one thing they have in common is that they are very aromatic. Their color is in the skin, so the more the skin stays together with the grapejuice when it is pressed, the more colour the wine gets.

As Charles Smith puts it; "you can still be a bad ass and drink Rosé".

This year we give it maximum gas with Rosé. Dig in and enjoy!

BOURGOGNE

For many, Burgundy is a mystery and impossible to navigate around. They have the grape varieties under control, but with all the municipalities, vineyard names, producers, and even vintage differences, they don't make it easy. And of course, it is not the world's cheapest wine, and the wines can truly taste very different from producer to producer. So just get on board and hope for the best!

DOMAINE JEAN FERY

We have finally found an organic winery in Burgundy. It is Jean Fery, and with their 14 hectar, spread over 22 municipalities, we are more than covered throughout Burgundy. He likes to use oak on his wines, so they get some more body. Fortunately, he keeps it in the cellar until the oak is well integrated and not overpowering. Just the way we like it.

BOURGOGNE LOOK ALIKES

We have seen that prices have gone bananas in Burgundy, e.g., one of our wines from there has increased by 100, - kr in purchase price alone! It is now difficult to find value for money in Burgundy, and we have had a look around and found something that has the same style as Burgundy or is made from the same grapes. Feel free to dig in!

SPAIN

If there is one country that is storming ahead, it is Spain.

"New" areas appear on the map, the wines become juicier, and the old cask Rioja style is becoming a thing of the past. We have a great love for the coastal regions when it comes to white wines, and the Albarino from Galicia is particularly close to our hearts. There is an incredible amount of exciting stuff happening in areas we did not normally know about: Manchuela, Jumilla, Valencia, and Alicante have shown us, that they can do a little bit of everything.

CALIFORNIA & WASHINGTON STATE

Hello there! California is the 4th largest wine producing "country" in the world, so clearly, we have quite a bit from there. From top top wines to slurp slurp wines, they can do it all over there.

CHARLES SMITH – WASHINGTON STATE

He's hard to get around – Charles is.

Besides his 10 years in Denmark as tour manager for Psyched up Janice, he is also the man behind everyone's wine darling, Kung Fu Girl. Like all great winemakers, he is great at both his entry level wines, but can also hit the 100 points that Parker occasionally awards.

FIRST CUT - CALIFORNIA

We searched high and low in California with hopes of finding the juice that hits the spot with the Danes. After tasting countless of samples from the tanks, we stumbled upon the quality of this wine. It's Chardonnay, with everything it has to offer. It does exactly what it is meant to do!

ARGENTINA & CHILE

The South Americans are changing, and they are beginning to prove that they too, can make magnificent wines. From the Argentine highlands, Riccitelli shines with wines that almost taste European, and the Chileans have gone into natural wine mode, and they are doing it well.

REDS

FRANCE BOURGOGNE

For many, Burgundy is a mystery and impossible to navigate. They have the grapes under control, but with all the municipalities, vineyard names, producers, and even vintage differences, they don't make it easy. And of course, it is not the world's cheapest wine, and the wines can truly taste very different from producer to producer. There's not much help to be had, so just get on board and hope for the best!

DOMAINE JEAN FERY

We have finally found an organic winery in Burgundy. It is Jean Fery, and with their 14 hectares spread over 22 municipalities, we are more than covered throughout Burgundy. He likes to use oak aging on his wines, so they get some more body. Fortunately, he keeps it in the cellar until so cask is well integrated and not overpowering. Just the way we like it.

TERRES SECRETES & NUITON BEAUNOY

With their 1300 hectares, 4000 vineyards and 200 farmers, it is quite significant in size. The cooperative has been around for many years, and they are on their journey towards being sustainable and organic. They cover many areas of Burgundy and therefor make it easy for us to represent a larger area. The wines are typical of their areas and have a lighter touch than the Jean Fery wines.

PINOT NOIR & FRIENDS

Pinot Noir is a thin-shelled grape, and that is what we find charming - that a bright red wine can taste of so much. But it's not just the Pinot Noir grape that's thin-shelled.

We have collected some of the others, - they range from the French; Gamay, Trousseau and Poulsard - to the Etna grape variety Nerello Mascalese. There is no getting around the fact that Pinot Noir thrives all over the world, and it is especially big in California.

However, there are also some good ones from Austria, Germany, Czech Republic and Argentina.

VALENTINA PASSALACQUA

The cool lady with purple hair. Being a single mother and a winemaker in male-dominated Puglia is something, and even making wines that are so far removed from tradition wines, really require courage. Valentina makes easy-to-drink natural wines with low alcohol. She has set herself the goal that Natural wines should taste good, be easily accessible, and available at an affordable price.

SICILY - ETNA

We can't get enough of Etna. The mixture of the volcanic soil and the thin-skinned grapes, Nerello Mascalese is a match made in heaven. BLACKBERRY

Everyone has a sweet tooth, and how nice that it is also available in liquid form.

The natural fermentation of the grape must is stopped by the addition of grape spirit.

This way, the must retains something of the grapes' natural sugar content. The wine becomes naturally sweet, and the alcohol percentage naturally increases.

WILD FOR WINE?

WANT TO TASTE MORE?

Wine tasting
there is nothing more
fun than tasting wine,
and learning about it
at the same time.

At our wine bars and restaurants, there is plenty of opportunity to hold tastings, both for smaller and larger companies. If it is difficult to get out the door, we are happy to come out to both companies and private individuals.

We love wine and we love good stories.

There is a good story behind all of Husted Vin's wines - and we love to tell them.

The best way is to host wine tastings - and we often do that...

We host tastings in our restaurants and out with our customers.

We speak at the level of the people who participate based on the motto:

If you like the wine, it is a good wine...

We have a personal relationship with the vast majority of producers and winemakers.

Some are good old friends, while others are new acquaintances,
but they all put their heart into the production.

Every year we travel out with a handful of our team, and visit our producers.

Right here, we get the feeling of being part of something bigger - the love of good wine.

Contact us for a chat about your wine tasting so that together we can find just the right experience for you.
