

# WELCOME

Husted is a handful of restaurants, scattered around the city, with one thing in common: A lot of good wine, served with coziness and heart. All the wines are imported by Husted Vin and come from all over the world. Our goal is for all the wines to be sustainable, and preferably organic, if it makes sense in relation to the area they come from. Sit back and enjoy our cozy corners of the city.

- Kenn Husted

## THIS IS NOT YOUR ORDINARY WINE LIST.

We are mixing things up and are trying to make it easier for you to understand and choose the right wine for the mood you are in right now.

We have a lot of categories that sometimes need an explanation, and here it is.

**THE PICTURES OF EX. LEMON:** There are no lemons in the wine, but it is one of the flavors that the grape smells or taste like. So do not worry, there are no leather boots in your wine.

**G/L:** It indicates the sugar level in the wines. For instance, a dry wine contains between 2-3 grams of sugar per liter while 22 g/l is a semi-sweet wine.

**0 MG/L SO2:** It indicates the sulphite level in the wines, which is important for natural wine enthusiasts. If a white wine has below 40 mg/l SO2 and a red wine has 30 mg/l SO2, you can call them natural wines.

**SUSTAINABLE:** We are all talking about sustainability, but what does it really mean? Is it just an excuse not to be organic, or is there more to it?

Most of our winemakers are either organic, biodynamic, or sustainable. Those who are sustainable have chosen not to be organic, either because of the bureaucracy of getting the label, their vineyards are too small, or for other reasons. Some believe they can do an even better job being sustainable, for example, by not spraying as much copper in the vineyard, which is commonly used in organic farming.

**HVE:** (Haute Valeur Environnementale) is a sustainable label used in France, where they work with organic principles.

**ECO:** As you know it from Milk and Eggs.

**OAK:** Many wines are stored in oak barrels. Some of the benefits include a soft maturation of the wines and the addition of vanilla flavors.

*NB. Vintages may vary subject to availability.*

# BUBBLES

Champagne has become expensive, so we have looked elsewhere to find some seductive wines with bubbles in them. There is everything from wines that are made like Champagne (Cava & Crémant), to wines made using the older methods (Pet Nat, Ancestrale), to the simpler tank methods (Spumante). Their similarities are that they are all sustainable in their own way, and most of them are organic.

STRAWBERRY

MELON

ROSE

ORANGE

RASPBERRY

CHERRY

From pale to deep dark pink and from crunchy to sugary sweet. Rosé is not so easy to master. The grapes are countless, but one thing they have in common is that they are very aromatic. Their color is in the skin, so the more the skin stays together with the grapejuice when it is pressed, the more colour the wine gets. The winemaker Charles Smith puts it; "you can still be a badass and drink Rosé"!

### BOURGOGNE

For many, Burgundy is a mystery and impossible to navigate around. They have the grape varieties under control, but with all the municipalities, vineyard names, producers, and even vintage differences, they don't make it easy. And of course, it is not the world's cheapest wine, and the wines can truly taste very different from producer to producer. So just get on board and hope for the best!

#### VINCENT COUCHE - CHABLIS

With no added sulphites, and kept in Amfora and Barrels for ageing, makes the wines fresh and alive, with the hint of citrus and vanilla.  
Also for you who are not used to the natural styles in wine.

## DOMAINE DENIS FOUQUERAND - HAUTES CôTES DE BEAUNE

Aligoté is an upcoming grape, and can show a lot of personality with nutty character, high acidity, and minerality, which makes it a nice change from Chardonnay.  
The Chardonnay is slightly oaked, but in a lighter style.

## JEAN & SEBASTIEN DAUVISSAT - CHABLIS

■ Their wines are 'Lutte Raisonnée', which means, 'the reasoned struggle'. They are treating the grapes the best way possible, and if they need to spray, they are doing it very gently. Their wines are with no oak, except for the Grand Cru. Lots of green apples, fresh acidity & a fullbodiness that are not oakdriven.

# LOIRE

The Loire valley is long, and there is a big difference from the mineral-driven coastal Melon de Bourgogne in Muscadet to the resilient Chenin Blanc in the west, to the flourishing Sauvignon Blanc in the east.

# **FRANCE BOURGOGNE**

For many, Burgundy is a mystery and impossible to navigate. They have the grapes under control, but with all the municipalities, vineyard names, producers, and even vintage differences, they don't make it easy.

And of course, it is not the world's cheapest wine, and the wines can truly taste very different from producer to producer. There's not much help to be had, so just get on board and hope for the best!

DOMAINE JEAN FERY

They have wines all over the place, from lighter Maranges and Savigny-Les-Beaunes to more heavy wines from Gevrey Chambertin. All with a nice hint of oak.

We love our thin skinned red grapes, and luckily there are a lot of them. The wines are mostly light in colour, high in acidity and low in tannins, with a taste of roses, raspberry, strawberry and cherries. Here's some of our favorites grapes: Nerello, Poulsard, Gamay, Trouseau, Grenache, Mencia, Nebbiolo, Zweigelt.

# CABERNET SAUVIGNON

Cabernet Sauvignon comes in many forms from all over the world. From its birthplace in Bordeaux, where it represents cool-climate wines with herbaceous notes, to California, where the wines become rounder, bolder, and more focused on vanilla, chocolate, and black currant flavors.

Here is a nice selection, ranging from fruity to very oaky. Dig in and enjoy!

# NATURAL WINE

## MINIMAL INTERVENTION

Very controversial, and for some completely enigmatic. What is natural wine and what can you expect?

In short, these are wines where there is minimal intervention in the wine, i.e. it must take care of itself, be organic, not make use of pesticides, with no added yeast, sugar or acid. The wine must also not be filtered, and the content of sulphites (SO<sub>2</sub>) must not be higher than 30 mg/l for the reds and 40 mg/l for the whites.

However, a law has not yet been made for natural wines, so it is still 'uncharted territory'

- The above are only guidelines. So, what can one expect from the wine?

Our natural wines are not completely off the rails, and don't taste of sour cider or smell like an old sports bag. They're made with utmost care, and it feels like they're more bare and naked, than your conventional wines.

# ORANGE WINE

MANDARIN

APRICOT

HONEY

TEA

Now what is that?! It is a white wine that is made like red wine!

Another reach for the 'wine sky', even though the people of Georgia have been making wine this way for the last 5000 years. All of the green grape is fermented together, including skin, juice and seeds. It is the skin of the grape that gives the wine a darker colour than usual. The wine takes on an orange hue, and has more body and tannins. The taste is dry, and towards orange peel, quince and dried apricots.

CHERRY

RASPBERRY

BLACKBERRY

Everyone has a sweet tooth, and how nice that it is also available in liquid form.

The natural fermentation of the grapemust is stopped by the addition of grape spirit.

This way, the must retains something of the grapes' natural sugar content. The wine becomes naturally sweet, and the alcohol percentage naturally increases.

# WILD FOR WINE?

## WANT TO TASTE MORE?

**WINE TASTING  
THERE IS NOTHING MORE  
FUN THAN TASTING WINE,  
AND LEARNING ABOUT IT  
AT THE SAME TIME.**

At our wine bars and restaurants, there is plenty of opportunity to hold tastings, both for smaller and larger companies. If it is difficult to get out the door, we are happy to come out to both companies and private individuals.

We love wine and we love good stories.  
There is a good story behind all of Husted Vin's wines - and we love to tell them.

The best way is to host wine tastings - and we often do that...  
We host tastings in our restaurants, shops and out with our customers.  
We speak at the level of the people who participate based on the motto:  
**If you like the wine, it is a good wine...**

We have a personal relationship with the vast majority of producers and winemakers.  
Some are good old friends, while others are new acquaintances,  
but they all put their heart into the production.

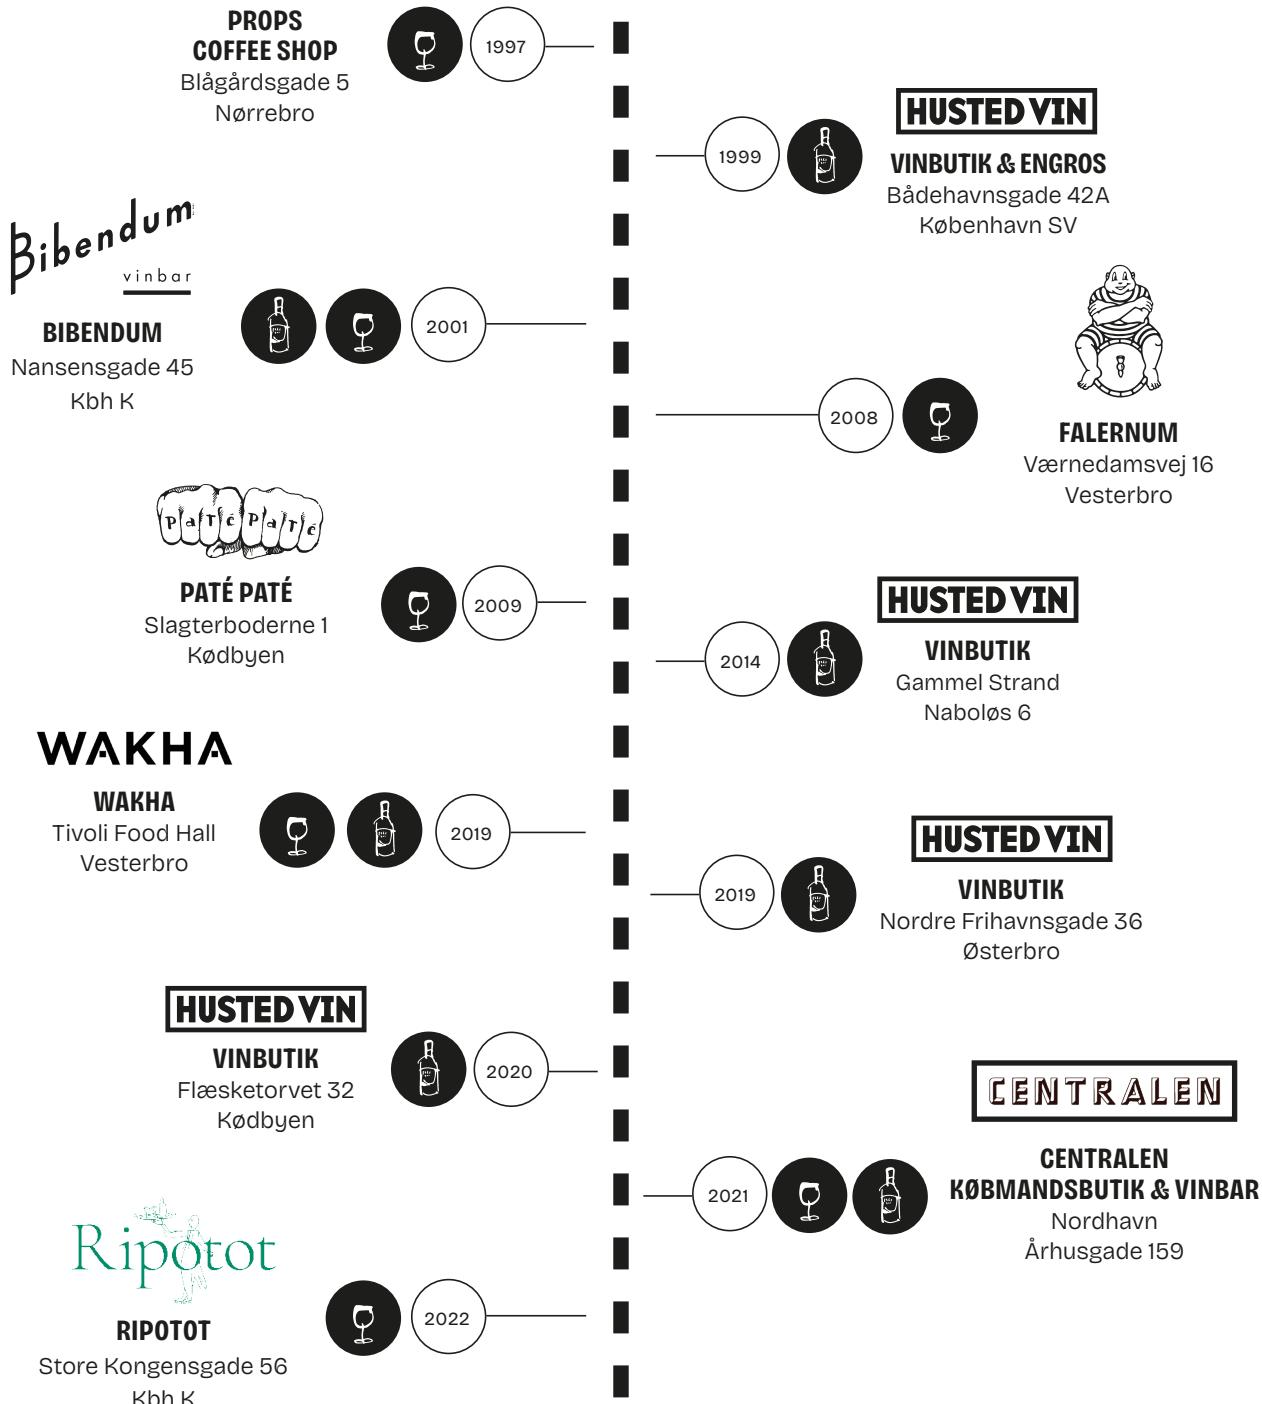

Every year we travel out with a handful of our team, and visit our producers.  
Right here, we get the feeling of being part of something bigger – the love of good wine.

Contact us for a chat about your wine tasting so that together we can find just the right experience for you. Write an email to [butik@hustedvin.dk](mailto:butik@hustedvin.dk)
